#### **DETAILED ACTION**

# Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement and the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claim 11 has been amended to include details of a control valve and relief valve that appears to be specific to the embodiment of figure 4. The only pressure level disclosed in the embodiment of figure 4 is 150 PSI. The meaning of the limitation "65 pounds" is not clear as the disclosure appears to define 65 pounds to be the level of force required to turn the wheel, not a pressure level of the apply port.

## Allowable Subject Matter

Claims 11 and 14-18 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to disclose the details of the control valve responsive to fluid pressure at the brake release port and configured to pilot a pressure relief valve

Art Unit: 3683

configured to allow fluid flow into the reservoir when a pressure at the pump apply port reaches a pre-determined level.

# Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley T. King whose telephone number is (571) 272-7117. The examiner can normally be reached on 11:00-7:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James McClellan can be reached on (571) 272-6786. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 10/790,150
